

MAGNIFICENT SUM RAISED FOR LOW COST HOUSING

Big thanks go to Swindon Gorse Hill Baptist Church who raised their largest amount ever through their Christmas project. Last year the church decided to support The Leprosy Mission and raised the magnificent sum of £4,618.14 towards low cost housing for leprosy affected families.

The money was raised in various ways including through the young people who went carol singing. Also, donations were given at the Tuesday luncheon club where there was a display about The Leprosy Mission's work. A large Christmas card depicting a low cost house was created by the very artistic Jean Westall. The church family were invited to sign it and give a donation. It proved a big hit, especially with the children!

Grace McShane (former TLM rep) and Betty Boyd (current TLM Rep) are seen here presenting the cheque to The Leprosy Mission's area co-ordinator Bill Hewis.

Once again, many thanks to Swindon Gorse Hill Baptist Church and everyone who helped to make the Christmas project a huge success. You have helped to change the lives of many people affected by leprosy.
