

L.O. Design a product to help people with leprosy to safely pick up cooking pots.

I am designing

I will use the following materials

To make the design I will need the following equipment

My design will look like this

Checklist

- | | | | |
|--|-----|----|-------|
| • Protect hands when picking up and putting down hot pots | YES | NO | MAYBE |
| • Be light enough that they can use their arm to lift it. | YES | NO | MAYBE |
| • Strong enough that it does not break. | YES | NO | MAYBE |
| • Aesthetically (looks good) pleasing that they will want to use it. | YES | NO | MAYBE |
